Господину Дэвиду А.Кристиану
Mr. David A.Christian

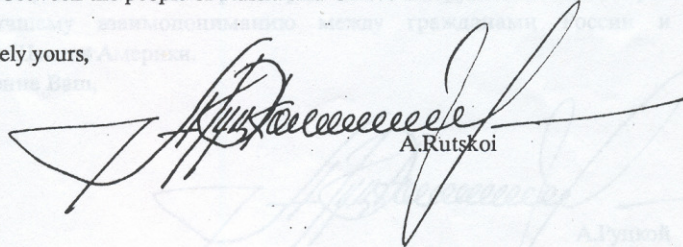

Уважаемый господин Кристиан!
Dear Mr.Christian,

It was a great pleasure to meet you again in Moscow and to discuss number of important questions relating the political situation in Russia, current and future of the Russia-US relations. Since our first meeting in 1991 it was nice to feel you friendship and support. We, the soldiers, have unique experience that gave us better understanding of the things.

When last autumn I was defending the Constitution,the law and order it was important to me and my friends to feel the support of the people like you. You've seen with your own eyes what has happened here and even was injured when you openly disagreed with the terrible actions undertaking against the Russian parliament and me as Vice-President of Russia, who was elected by the people. And you've made great job to explain many people in the USA the truth about this events.

Hope that we will expand our cooperation that will be useful for better understanding between the people of Russia and United States of America.

Sincerely yours,

A.Rutskoi
